

# Evaporative Coolers and Swamp Coolers Fan

**Left And Right 60°**  
Automatic swing air supply

**Upper And Bottom 60°**  
Manual height adjustment

- 1. Advanced Evaporative Cooling Technology:** Utilizes water evaporation to lower temperatures effectively, providing a natural and energy-efficient cooling solution.
- 2. High Airflow Capacity:** Delivers strong airflow to cool large areas quickly and efficiently, making it suitable for both indoor and outdoor use.
- 3. Eco-Friendly Operation:** Consumes less energy compared to traditional air conditioners, reducing your carbon footprint and energy costs.
- 4. Portable and Versatile Design:** Equipped with wheels for easy movement, allowing you to place the cooler wherever it's needed most.
- 5. User-Friendly Controls:** Simple and intuitive controls enable easy adjustment of settings to achieve optimal cooling performance.

Model	Air Volume (m <sup>3</sup> /h)	Applicable Area (m <sup>2</sup> )	Voltage	Power (W)	Weight (kg)	Water Tank	Water Consumption	Product Size (mm)
